JOINING WOOL

When you have to join a new ball of wool, or replace a knot, the simplest way is to join at the beginning of a row, even if you have to pull back a partly knitted row. It is preferable, if possible, to join at a seam edge so that the ends can be neatly darned into a seam when the garment is sewn up.

If you are working in rounds, or in straight work, and there is a knot in the wool you are using, cut out the knot. Unwind the plies of each of the two ends of wool, for about 2 ins. and splice as follows:—

In 2 ply, break off one of the threads from each length of wool: in 3 ply two from one end and one from the other; in 4 ply two from each end. Place the remaining ends together, thus forming the 2, 3, or 4 ply thickness again; twist them together with the fingers and knit in the usual way with the twisted wool thus formed.

Owing to the numerous processes through which wool has to pass, it is impossible to avoid occasional knots, so—**Remember** for a neat finish and comfort to the wearer, **never** knit a knot into your garment!—Either pull back to the seam, or splice.

Faggot Lace Gloves

Knitted on 2 Needles

Shown on page 7 (centre)

MATERIALS:
Knitted on 2 needles, these light weight gloves feature a touch of knitted faggot stitch down the backs and the thumbs. As illustrated, the gloves were knitted with Beehive Fingering 3 ply Patonised and from other satisfactory test models, Patwin 3 ply Patonised is an alternative choice. For dependability and satisfactory knitting, be sure to use one or other of these specified yarns. You will require:—2 balls. Two No. 13 Queen Bee Knitting Needles.

SIZE: Average, 6½-7. For a smaller size use No. 14 needles.

Tension: 9 sts. and 12 rows = 1 inch in Stocking st. with No. 13 needles.

Check tension—see page 23.

For Washing Instructions—see page 23.

NOTE:—Plain Gloves may be knitted from these instructions by working the sts. of the Faggot Pattern as knit sts. on knit rows and purl sts. on purl rows.

**RIGHT GLOVE: Cast on 58 sts.
Work 12 rows Stocking st. ending with purl row.
Knit 3 rows to turn hem.
Beginning with purl row, work 11 more rows Stocking st.

To make hem: Fold the cast-on edge, away from you, up to meet the sts. on the needle, thus having wrong sides of work facing each other. Insert right hand needle through 1st. st. as usual and then through the 1st. loop on the cast-on row. Wool over needle and draw a st. through the cast-on loop and the st. on the needle, thus knitting the st. on left hand needle together with the loop on the cast-on row. Slip st. off left hand needle as usual. Continue in this manner across entire row, taking care not to miss any of the cast-on loops.** **Next row:** K1. P31. (w.r.n. P2tog. P5)3 times. w.r.n. P2tog. THE WASHING OF WOOLLIES

Well knitted woollies are worthy of careful treatment. They will give long service and keep their shape and softness if this simple routine is followed:—

BEFORE WASHING

Take garment measurements, noting chest measurement, body and sleeve lengths.

WASHING

Dissolve completely a little soap, flakes or powder, cold water soap or good detergent in a small quantity of hot water.

Add cold water until the soap suds are only lukewarm (too hot for the elbow is altogether too hot for woollies). Detergents require much cooler water.

Place the garment in the suds and squeeze gently. Do not rub or leave to soak.

When the garment is clean, squeeze as much water out as possible but do not wring or twist.

Keep the garment supported by the hands whenever it is removed from the water.

RINSING

Rinse at least twice in clean water, no warmer than the washing suds. *Every trace of soap must be removed.*

Be sure to add a few drops of white vinegar to the final rinse water. This is most important, when more than one shade is in the garment, particularly when one is WHITE.

DRYING

Never let woollies lie wet. Remove all moisture at once by rolling in a thick towel.

Lay garment on a flat surface away from excessive heat AND SUNLIGHT.

Gently push it back to its original size and shape as indicated by measurements taken before washing. Wrinkles may occur but these will tend to disappear as garment dries. *Do not hang up.* Dry on a flat surface.

NOTE:

Most washing troubles are caused by:—
TOO HOT WATER, TOO MUCH SOAP, TOO MUCH RUBBING, TOO LITTLE RINSING, INCORRECT TENSION AND IMPROPER SHAPING.

PATONISED WOOLS

To ensure the fullest benefit of increased wearing properties, it is recommended that the foregoing washing routine be followed for garments knitted from Patonised Shrink-resist wools.

CHECK TENSION

The garments in this book are worked to the exact tension given. They are closely knitted to ensure a firm fabric that will wear better and keep its shape longer than a loosely knitted fabric. **Check your tension.** Before beginning your garment take the wool and needles specified. Cast on 20 stitches. Work 20 rows stocking stitch. Lay work flat on a table and place a ruler across the stitches. Count the number of stitches to one inch and compare with the tension given in the instructions. All given tension in Beehive instructions is measured over stocking stitch. If your tension is too loose try a size smaller needle. If your tension is too tight try a size larger needle.

Be sure to work to exact tension given if you want your garment to work to correct size.

WOOLS TO USE

Every instruction in this book has been carefully prepared with the wool recommended; for perfect satisfaction be sure to use only the wool specified.

When purchasing the wool, be sure to buy enough *in one dye lot* to complete the garment chosen and avoid trouble in having to match the shade later.

TO BLOCK AND PRESS

Place all knitted pieces on a pad, right side down, measure and pin them to size and shape using rustless pins. Cover with a damp cloth. Holding a hot iron close enough to the cloth to draw steam, smooth over each piece, except for the ribbed bands. Do not press the iron on the work at any time. Remove cloth and leave pieces to dry.
